CREATING A PERFECT BALANCE

FEATURES & BENEFITS

- 1 Seat Height Adjustment**
 - Lift right-hand lever up to adjust the seat height without sitting on the chair.
 - To lower seat height, lift right-hand lever up while seated.
 - For optimal posture, thighs should be parallel with ground and both feet flat on the floor. This improves blood circulation and comfort.
- 2 Seat Position Locking**
 - Push in the right-hand lever to lock the seat position.
 - Pull outwards the lever to unlock.
 - The mechanism provides dynamic seating which maintains support as you move and recline.
- 3 Tension Control**
 - Turn the tension control knob clockwise for a more rigid back tilt and anti clockwise for a softer tension to suit control according to your body weight.
 - The tension control allows comfortable and relaxed seating according to your body weight.
- 4 Lumbar forward & Backward Adjustment**
 - With forward and backward adjustment to provide an ergonomic back support that suits individuals of different lumbar height.
- 5 Headrest**
 - With angle adjustment that provide ergonomic support for the neck to prevent cervical strains.
- 6 Larger & Higher Seat (SL)**
 - Optional with larger and higher seat for different size of individual.
- 7 Adjustable Armrest (107A)**
 - Height adjustment armrest with PU padding on top to provide comfortable resting position for the arms.
- 8 Fixed Armrest (40A)**
 - Modern design PP injection fixed T-armrest provides a natural resting position for the arms.
- 9 NH1 + R2 BASE ROLLER**
 - With US BIFMA standard passed sleek nylon high base NH1 with R2 60mm nylon castor.
- 10 NB5 + R1 BASE ROLLER**
 - With US BIFMA standard passed nylon flat base NB5 with R1 50mm nylon castor.
- 11 Cantilever Base (CE42)**
 - Epoxy Black Sledge Base
