"Creating a Perfect Balance"

### Features & Benefits

#### 1 Seat Height Adjustment

- Lift right-hand lever up to adjust the seat height without sitting on the chair.
- To lower seat height, lift right-hand lever up while seated.
- For optimal posture, thighs should be parallel with ground and both feet flat on the floor. This improves blood circulation and comfort.

#### 2 Seat Position Locking with Recliner Tilt Mechanism (M24)

- Push in the right-hand lever to lock the seat position.
- Pull outwards the lever to unlock.
- The mechanism provides dynamic seating which maintains support as you move and recline.

#### 3 Tension Control

- Turn the tension control knob clockwise for a more rigid back tilt and anti clockwise for a softer tension to suit control according to your body weight.
- The tension control allows comfortable and relaxed seating according to your body weight.

#### 4 Adjustable Armrest (72A)

- Height adjustable armrest with PP padding on top to provide comfortable resting position for the arms.

#### 5 Fixed Armrest (40A)

- Modern design PP injection fixed T-armrest provides a natural resting position for the arms.

#### 6 NH2 Base + R2 Roller

- With US BIFMA standard passed sleek nylon high base NH2 with R2 60mm roller.

#### 7 NB3 + R1 Base Roller

- With US BIFMA standard passed nylon flat base NB3 with R1 50mm nylon castor.

#### 8 Cantilever Base (CE7)

- Epoxy Black Sledge Base.
