Selection

“Creating a Perfect Balance”

#### Features & Benefits

##### 1 Seat Height Adjustment

- lift right-hand lever up to adjust the seat height without sitting on the chair.
- To lower seat height, lift right-hand lever up while seated.
- For optimal posture, thighs should be parallel with ground and both feet flat on the floor. This improves blood circulation and comfort.

##### 2 Seat Position Locking with Recliner Synchron Mechanism (M21)

- Push in the right-hand lever to lock the seat position.
- Pull outwards the lever to unlock.
- The mechanism provides dynamic seating which maintains support as you move and recline.

##### 3 Tension Control

- Turn the tension control knob clockwise for a more rigid back tilt and anti clockwise for a softer tension to suit control according to your body weight.

- The tension control allows comfortable and relaxed seating according to your body weight.

##### 4 Headrest

- With height and angle adjustment that provide ergonomic support for the neck to prevent cervical strains.

##### 5 Adjustable Armrest (73A)

- Height adjustment armrest with PU padding on top to provide comfortable resting position for the arms.

##### 6 Fixed Armrest (42A)

- Modern design PP injection fixed T-armrest provides a natural resting position for the arms.

##### 7 Gaslift

- With GERMANY DIN 4550 Class 3 Standard passed gaslift.

##### 8 NH1 + R2 Base Roller

- With US BIFMA standard passed sleek nylon high base NH1 with R2 60mm roller.

##### 9 NB5 + R1 Base Roller

- With US BIFMA standard passed nylon flat base NB5 with R1 50mm nylon castor.

##### 10 Cantilever Base (CE42)

- Epoxy Black Sledge Base.
